

AQUINO TEGAR

WEB ENGINEER

PERSONAL PROFILE

Experienced Web Developer with almost 3 years in the field.

Here's a couple things that I do: I build backend and API endpoints using laravel-mysql, I build frontend with React/Vue JS, I build iOS/Android app from React Native, and I personally use docker for my local development and I have unpoured crush on Node Js and Python, I would love to if you give me the chance.

SKILLS

PHP

Javascript

MySQL

GIT

Docker

Laravel

React JS

Vue JS
